Re: *Crucible Steel Complex*

Dear Amelia:

Pursuant to your request, enclosed is a list of current business addresses and supporting documentation for PRPs identified during 1969-1971 at the Crucible Steel Complex. As you are aware, it was during this time frame that documented releases were investigated.

As we discussed earlier today, Andrews & Kurth will be addressing the following PRPs: Crucible Steel (and the PRPs associated with the Crucible Steel complex), BASF, AT&T, Otis Elevator, and Barth Smelting/Ogden. I will keep you informed of any changes to this list.

Please feel free to call me with any questions you may have regarding the enclosed information. Thank you for your attention to this matter.

Very truly yours,

Johanna S. Coulter
